Mori Sconce

Installation and Product Guide

CAUTION: Electric shock risk. Turn off electrical power at breaker before beginning installation. RBW recommends this product be installed by a qualified electrician only.
Mori Sconce

Installation

1. Connect line voltage power to individual leads and attach wall mount (a) to junction box.

2. Thread shade clockwise into junction mount until fixture is secure.

For dimmer, we recommend the Lutron CL series: Single pole/3-way (Gloss, boxed packaging), 120 V / 600 W inc/hal, DVCL-153P
